The College of Liberal Arts, through its ten academic departments and one school, educates and serves all MTSU students in the University's True Blue Core Program; offers graduate and undergraduate majors, concentrations, minors, interdisciplinary programs, and teacher preparation programs; and provides a wide variety of cocurricular activities including lecture series, concerts, performances, and exhibitions. With diverse programs in the humanities; social sciences; and visual, performing, and communication arts, the college brings together an outstanding faculty and students to form a community devoted to lifelong learning, scholarship, research and discovery, and public service.

Through both curricular and cocurricular offerings, the college also seeks to enrich the University and regional community with scholarly and cultural activities designed to promote among all University citizens and patrons a broad knowledge of liberal arts disciplines; a commitment to continual intellectual growth; the ongoing improvement of skills that enhance communication, problem-solving, and creative and critical thinking; and a global perspective that supports an appreciation of the cultural diversity within our region and beyond.

Following are the college departments/schools with a listing of programs offered.

## Career Readiness Minor

College of Liberal Arts

Advisor: Mike Rice

Michael.Rice@mtsu.edu

The interdisciplinary Career Readiness minor will supplement the preparation of students from majors across the university through acquisition of knowledge and skills directly related to career readiness as identified by the National Association of Colleges and Employers (NACE). Aligned with the framework established by NACE, the foundation of career readiness gained in the minor will enable students, regardless of their field of study and career interests, to develop and demonstrate, "core competencies that broadly prepare the college educated for success in the workplace and lifelong career management."

The Career Readiness minor requires 15 credit hours as noted below. A grade of C (2.0) or better (or P for courses using Pass/Fail grading) is required in each course completed for this minor.

## Interdisciplinary Minors

Interdisciplinary minors require the student to complete a minimum of 15 to 21 hours from a list of specific courses. Unless otherwise noted, a student may take no more than 6 hours of courses from a single department until he or she surpasses the required minimum number of hours necessary for completing the minor. Exceptions to this rule may be found within the discussions of several of the minors. In most cases, a student is also limited to just 3 hours of credit toward the minor in the same department or discipline in which he or she is taking a major. Students must fulfill all departmental prerequisites for any course within an interdisciplinary minor. In some cases, advisors may approve course substitutions within these program requirements.

Programs in the Department of Art and Design lead to the Bachelor of Science, the Bachelor of Fine Arts, or the Bachelor of Arts degree. Persons pursuing the major in Art Education may opt for licensure or a non-licensure track. In order to earn the B.F.A. degree, students major in Art and select one of two concentrations-Graphic Design or Studio. These programs offer preparation for work as a commercial artist/designer and/or for advanced study in a studio area of interest. The B.A. and B.S. degrees in Art offer preparation for those who wish to pursue careers in museums, galleries, or arts organizations and/or further study at the graduate level. Concentrations are offered in Art History and Visual Arts.

Minors in Art, Art History, Graphic Design Print, Interactive/Illustration, Motion Illustration, Museum Studies, and Typographic Motion are also available. The department also coordinates the Medieval Studies interdisciplinary minor. Students transferring into department programs may be required to submit a portfolio of artwork for review before transfer credits are approved.

Transfer and MTSU students in the Graphic Design concentration will continue to use candidacy program requirements listed.

### Career Opportunities in Art

Students interested in career opportunities in art should consult their advisors for information regarding preparatory MTSU courses, graduate programs, certification, etc., for careers in arts administration and art therapy.

2. All students in the Graphic Design concentration should apply for admission to candidacy at the end of the semester in which they will have completed 45 semester hours of coursework.
3. At a minimum, students in the Graphic Design concentration must have completed **each** of the following courses with a grade of C (2.00) or better before applying for candidacy:  
ART 1610 - Two-Dimensional Design  
ART 1620 - Drawing I

5. Students applying for candidacy in the Graphic Design concentration must twice submit for juried review a portfolio containing work completed in the courses listed in item 3 above (specified graphic-related electives). (The majority of the work in the portfolio must be two-dimensional.) The first portfolio review will follow completion of ART 2325 and a second review will follow completion of DSGN 3325. If after the second portfolio review a student is not admitted to candidacy the student may, with modifications, submit the portfolio one additional time before being asked to find another major or concentration.

# Communication Studies

## Mary Beth Asbury, Chair

**Aldridge Sanford, Chevrette, Dix, Hoskins, Kim, McCormick, Priddis, Richey, Shi**

The study of communication focuses on how people use messages to generate meanings within and across various contexts. The communication discipline studies all forms, modes, media, and consequences of human communication, creating flexibility in career choices and opportunities for personal development. Our students

- develop critical thinking abilities to evaluate communication problems and find solutions;
- engage in experiential learning in the community and build toward career goals with hands-on projects;
- apply knowledge to conduct research with faculty in areas of interest;
- create messages designed for specific audiences, contexts, and goals; and
- understand and navigate differences in our global society.

B.A. and B.S. options in the Communication major are offered with a generalist degree (i.e., no concentrations) and with concentrations in Culture and Social Influence, Health Communication, and Organizational Communication. These concentrations allow students to focus on areas of interest and develop skills that employers desire for specific jobs and interests. Many COMM courses are part of MT Engage and the Experiential Learning Scholars Program, emphasizing hands-on learning.

A minor in Communication is also available. The 15-credit-hour minor in Communication enhances any program of study at MTSU and offers flexible study, in which students select from a wide variety of communication courses to expand their career preparation and communication skills. Students interested in the minor should take 6 lower-division credit hours from COMM courses in the True Blue Core, plus 9 elective hours from the upper-division COMM courses. To declare a minor, students should work with their academic advisors.

# English

## Stephen Severn, Chair

**Albakry, Arroyo, Barnett, Beard, Bhadury, Blackwell, Brantley, Branum-Thrash, Brewer, Brown, Burleson, Carpenter, Castelo, Denson, Detweiler, Donnelly, Dubek, Dudak, Evans, Fant, Gaitely, Hall, Harris-Aber, Helford, Henderson, Hennessy, Hernandez, Hollings, Hudson, Hutcheson, Jackson, J. Kates, R. Kates, Knox, Kostkowska, Lawrence, Lee, Levine, Licciardi, Lutz, Lynn, Mackin, Marchant, Matthews, McCain, McCluskey, McInturff, Mitchell, Moonshower, Myatt, Neth, Otto, Pantiledes, Phillips, Ragan, Reed, Renfroe, Reynolds, Shapiro, Sherman, Swenson, Therrien, Tormey, Tyner, Vorhees, Weedman, West, White, Whittemore, Wilson**  
Courses in the Department of English meet the general education needs of all students through the development of verbal and written communication skills and the appreciation of literature.

The department offers the following undergraduate major programs leading to a Bachelor of Arts degree: The traditional English major, the English major with concentrations in Writing, Literature and Culture, Literary Studies, English Language Linguistics, Creative Writing, and Secondary English Teacher Licensure. A Bachelor of Science is also offered in English and in English with concentrations in Secondary English Teacher Licensure, Creative Writing, and English Language Linguistic.

The non-teaching, traditional English program is designed to give students a well-rounded background in the study of the English language and its literature. The concentrations allow students to pursue special career and/or intellectual interests.

The concentration in English Language Linguistics is designed to provide a cross-disciplinary survey of how linguistics is examined in the disciplines of anthropology, English, psychology, communication disorders, classical and modern languages and philosophy. The concentration aims to develop in-depth expertise in theoretical and applied linguistics culminating in directed research in linguistics.

The main goal of the Literature and Culture concentration is to provide students with the opportunity to examine culture through the study of texts within an interdisciplinary framework. Students may choose a general cultural studies curriculum or they may specialize within the concentration by choosing courses in an area such as women in literature, popular culture and film, folklore, world literature, children's literature, multicultural literature, etc. The course of study is designed to help students broaden their understanding of the relationship between culture and literature.

The Literary Studies concentration is designed to provide students with the opportunity to take a greater number of advanced courses in literature and to focus on their interests within specific areas of English studies. Students may choose to emphasize a period, an author, or a genre or they may choose to increase their general knowledge of the field. Many students choose the Literary Studies concentration as a preparation for graduate or professional school. The Creative Writing concentration will engage students in the study of contemporary writing/writers and initiate them into the field. While pursuing this concentration will be directly beneficial to students wishing to pursue careers as writers or teachers of writing, the study of creative writing provides skills that apply to any field, such as the mastery of language and the ability to craft a story.

The Secondary English Teacher Licensure concentration is for students who wish to teach English in grades 7-12. English department courses in this concentration are chosen to provide students with a strong background in the subject they will be teaching. Students pursuing this curriculum along with the requirements of the licensure program will be prepared to teach 7-12 English in the state of Tennessee.

The Writing concentration gives students who are interested in developing themselves as writers the opportunity to do so while pursuing a major in English. Students may choose a general writing curriculum or they may specialize within the concentration by choosing courses in one area such as creative or professional writing.

Students in the English program have gone on to careers in editing, teaching, public relations, management, public service, and many other areas that value clarity of expression and logical thinking. In addition, many students have gone on to graduate programs, law school, and other professional education.

All students in the English Department are assigned a faculty advisor upon declaration of an English major. Students should meet with their advisors for guidance in planning their schedules and fulfilling all requirements. Those intending to get a professional license to teach English must consult with their advisors early in their university careers in order to ensure completion of the degree in a timely fashion. The University does not recommend anyone for licensure in English who has not satisfied requirements set by the College of Education for post baccalaureate endorsement.

The English Department participates in interdisciplinary majors and minors in African American Studies; American Culture; Classical Studies; Early Modern European Studies; Environment and Human Society; Film Studies; Global Studies; Great Books; Jewish and Holocaust Studies; Linguistic Studies; Media, History, and Culture; Medieval Studies; Middle Eastern Studies; Native American Studies; Russian Studies; Southern Studies; Twentieth-Century European Studies; Women's and Gender Studies; and Writing. Interdisciplinary minors are open to all students in the University. (See Interdisciplinary Majors and Minors section for more information.)

Before beginning the junior year, students should fill out an upper-division form with an advisor and file it with the graduation coordinator for Liberal Arts. **For 3000- and 4000-level courses, there is normally a prerequisite of 9 semester hours of English with a grade of C- or better.**

## General Requirements

**Students must pass ENGL 1010 and ENGL 1020 in sequence before taking ENGL 2020 or ENGL 2030 or HUM 2610. A minimum grade of C- in ENGL 1010 and ENGL 1020 is required to meet degree requirements.**

On the basis of ACT or SAT scores, MTSU will place students in the appropriate English course or require further testing. Students without ACT or SAT scores are required to take a placement test. (See University Studies for more information.)

Students whose native language is not English are required to take a placement test and may be required to enroll in ENGL 1008 or ENGL 1009 for ESL students before being allowed to enroll in ENGL 1010.

Some students are eligible for advanced standing credit to meet True Blue Core English requirements. (See Advanced Standing for more information.)

Successful completion of ENGL 1008, ENGL 1009, ENGL 1010, and ENGL 1020 requires a grade of C- or better.

**All students will complete the required 9 semester hours of English by passing the following courses in the sequence in which they are listed.**

1. **ENGL 1010**
2. **ENGL 1020**
3. **ENGL 2020 or ENGL 2030**

## Teacher Licensure

Students seeking a license to teach in secondary schools (grades 7-12) must complete (1) a major in the subject they intend to teach; (2) a minor (see Academic Policies and Procedures) or any interdisciplinary minor (see Interdisciplinary Majors and Minors); and (3) the Secondary Education Minor. *NOTE: The B.S. in English with a Secondary English Teacher Licensure concentration does not require a second minor.*

All students pursuing a major in English must complete the True Blue Core requirements and requirements for a Bachelor of Science degree. Students may not begin upper-division English studies until they have completed ENGL 1010, ENGL 1020, and ENGL 2020 or ENGL 2030. Typically, students will begin upper-division English studies in the second semester of their sophomore year with ENGL 3000 and one other English course.

The Academic Maps provide examples of a recommended plan of studies for students who wish to complete their academic requirements within a four-year period. However, there is no single way to complete the program. The department is generally flexible about the order in which courses are taken so long as prerequisites are met. Each English major has an assigned academic advisor. Consulting with this advisor regularly will help the student to individualize the program to his or her own needs and interests.

The Academic Maps provide examples of a recommended plan of studies for students who wish to complete their academic requirements within a four-year period. However, there is no single way to complete the program. The department is generally flexible about the order in which courses are taken so long as prerequisites are met. # English, Secondary English Teacher Licensure Concentration, B.A.

English

615-898-2595

Ron Kates, program coordinator

Ron.Kates@mtsu.edu

A major in English that also satisfies the academic requirements for teacher licensure consists of a minimum of 32 semester hours, at least 29 of which must be upper-division.

1. Students should take the required ENGL 3000 as soon as possible after completing freshman and sophomore True Blue Core requirements for English. The other core courses should be distributed throughout each student's remaining time at the University. It is not recommended to take all three in one semester.
2. In addition to the four core courses (ENGL 3000, ENGL 3010, ENGL 3020, and ENGL 3030), English majors with a Secondary Teacher Licensure Concentration must take ENGL 3745, ENGL 4500, and either ENGL 3510 or ENGL 4510.
3. Students must also take one course from each of the following groups:
  - a. Shakespeare (ENGL 3135, ENGL 4130, ENGL 4140)
  - b. Multicultural Literature (ENGL 3735, ENGL 3300, ENGL 3340, ENGL 3360, or ENGL 3365)
  - c. European Literature in Translation (ENGL 3400, ENGL 3420, ENGL 3430, or ENGL 4435)
4. An additional two (2) hours of upper-division English electives are required and are usually satisfied with a 3-hour course. Approved electives include ENGL 3410, ENGL 3450, ENGL 4540, ENGL 4605, ENGL 3760, ENGL 4750, or an additional course from 3b or 3c above.
5. With advisor approval, courses from the Special Topics, 3900/4900 number sequence, and literature courses offered outside the department or certain interdisciplinary Honors seminars (UH 3500 and 4600) may be substituted, when appropriate, for the multicultural, European, or guided electives above. Students must consult with their advisors before enrolling in any course that is not listed above, as not all substitutions are possible or appropriate.
6. This concentration is for students who wish to become high school English teachers. Students whose primary ambition is to teach English at the college level should look into a program that will prepare them for admission to graduate school. Students who do not wish to teach 6-12 should explore the "classic" English, B.A. without concentration or the English, Literature and Culture Concentration, B.A.; English, Literary Studies Concentration, B.A.; or the English, Writing Concentration, B.A.
7. Students may not apply more than twelve (12) hours of upper-division distance learning courses (web-based, correspondence, videoconferencing, or other format) without special permission. No more than three (3) hours may be taken outside MTSU.
8. ENGL 1010, ENGL 1020, ENGL 2020, or other lower-division English courses taken to satisfy True Blue Core requirements may not be counted as part of the hours required for an English major.
9. A maximum of three (3) lower division hours not taken for True Blue Core credit may be substituted by advisor.

Students wishing licensure to teach in the State of Tennessee must also complete the Secondary Education Minor. In addition, students must choose a second minor. Recommended minors for English majors include Anthropology, Communication Studies, Foreign Languages, History, Philosophy, Political Science, Psychology, Theatre, Film Studies, Writing, and Women's and Gender Studies, but students may choose any minor.

In order to complete the English licensure program in four years, students are encouraged to work closely with a faculty advisor. It is important to declare the major early and to consult the English advisor regularly to ensure enrollment in the right courses in the best sequence.

Students wishing to earn teaching licensure within four years must begin their foreign language requirements during the first semester of the freshman year, especially if they have deficiencies (that is, if they need to take FL 1010 and 1020 before the required 2010 and 2020). Students should also apply for admission to the licensure program no later than the beginning of their sophomore year in order to be on track to take YOED 2500 during the second semester of their sophomore year.

## **Music, B.A.**

### **Music**

**(615) 898-5984**

**Joshua Bedford, program coordinator**

**Joshua.Bedford@mtsu.edu**

The Bachelor of Arts music major provides students with a broad foundation for studying, performing, and communicating about music. Bachelor of Arts music majors have a great degree of flexibility in their coursework compared to other music majors and may be able to complete a second major in many disciplines. Students should consult with their advisors about options.

The major includes core classes in music theory and history, applied instruction and ensemble involvement within a Liberal Arts context. Students have a great deal of flexibility in determining their possible minors, or may choose to double major in a number of other disciplines. A semester of study abroad may be included in the degree.

A senior capstone project is presented with direction from a faculty mentor. This may be research driven, performance related, or a combination of both. Students are encouraged to develop independent work that may combine various disciplines. The B.A. in music is an excellent choice for many transfer students as well as students who wish to consider future graduate study.

## **Auditions**

A formal audition is optional to enter the Music, B.A., program. Students who audition successfully on their primary instrument/voice will be eligible to take lessons as part of their Performance Requirement. Students who do not audition, or who are not admitted via audition, may take an alternative set of performance-related courses to satisfy their Performance Requirement.

## **Jury Examinations**

Jury examinations are performance exams held at the conclusion of each semester to measure the student's progress. All students enrolled in private instruction perform juries at the discretion of the private instructor.

B.A. students planning a senior capstone project in performance (a recital or lecture-recital) are expected to continue taking private instruction and have the private instructor act as the capstone advisor.

Undergraduate Music majors must pass the Upper Division jury to qualify for applied music study at the MUAP 3000 or 4000 level. B.A. students do not need to pass the Upper Division jury unless required by the capstone advisor.

This would apply if the student's capstone project is performance related.

## **Class Piano/Theory and Aural Skills**

All undergraduate music majors (except keyboard principals) must take class piano every semester as indicated on the advising check sheets until the required piano proficiency exam is successfully completed. Concurrent enrollment in Class Piano I and Theory and Aural Skills I is required, with the following exceptions: (1) The student successfully passed either Class Piano I or Theory and Aural Skills I, but not both, or (2) the student successfully passed one or more levels of Class Piano by examination. Students should see their advisors for details.

Students wishing to continue piano after successfully completing the required class piano sequence may audition for piano applied lessons.

Keyboard principals must take MUS 2550, Keyboard Skills for Pianists I, and MUS 2560, Keyboard Skills for Pianists II, in lieu of class piano.

The academic study of religion at MTSU is part of the human sciences and contributes to the wider study of global cultures and international affairs, as well as personal and collective identities. A descriptive, interpretive, comparative, and historical field, its coursework prepares students to become well-informed, independent, and creative thinkers equipped with the methods and theories necessary to study religious phenomena in a systematic way, to synthesize findings, and to analyze critically what one finds. As such, a major in Religious Studies provides students with an invaluable foundation for a wide range of careers in which reading, writing, understanding, and analysis are essential. Coursework in Religious Studies offers preparation for occupations in a variety of fields, including education, research, religious ministry, counseling, human resources, and marketing. In addition to developing critical thinking skills, religious literacy helps prepare students to succeed in an increasingly diverse and multicultural society and workforce, from jobs as wide-ranging as international business leader to elementary school teacher.

Mohammad.Meerzaei@mtsu.edu

The academic study of religion at MTSU is part of the human sciences and contributes to the wider study of global cultures and international affairs, as well as personal and collective identities. A descriptive, interpretive, comparative, and historical field, its coursework prepares students to become well-informed, independent, and creative thinkers equipped with the methods and theories necessary to study religious phenomena in a systematic way, to synthesize findings, and to analyze critically what one finds. As such, a major in Religious Studies provides students with an invaluable foundation for a wide range of careers in which reading, writing, understanding, and analysis are essential. Coursework in Religious Studies offers preparation for occupations in a variety of fields, including education, research, religious ministry, counseling, human resources, and marketing. In addition to developing critical thinking skills, religious literacy helps prepare students to succeed in an increasingly diverse and multicultural society and workforce, from jobs as wide-ranging as international business leader to elementary school teacher.

The Human Geography concentration offers a comprehensive, applicable skill set designed to understand the diversity of cultures and socio-geographic complexities found in human societies. Human geographers seek to understand how humans uniquely create, manipulate, and adapt to the places they inhabit by examining natural environments, cultural practices, and economic and political systems. Knowledge gained from the Human Geography concentration is valuable as contemporary societies are interacting globally with one another as never before. Human geographers identify and comprehend these changes and find solutions to a variety of sociocultural problems taking place. This marketable skill set is attractive to a wide range of employers in the public, private, and nonprofit sectors.

The International Relations major offers courses to open doors around the world. A foreign language component is required. It is preferable that minors and electives be in foreign languages, humanities, or social science offerings that significantly contribute to an understanding of economic, geographical, historical, and cultural factors in international relations or in areas that provide students with substantive skills related to a professional environment such as business and computer science. Recommended related courses in social science are ANTH 2010; ECON 2410, ECON 4440, ECON 4470; GEOG 3420, GEOG 3430, GEOG 4500; HIST 3150, HIST 4330, HIST 4340; SOC 4511, SOC 4520. Interdisciplinary minors with a cross-cultural or area studies emphasis are also recommended.

The International Relations major offers courses to open doors around the world. It is preferable that minors and electives be in foreign languages, humanities, or social science offerings that significantly contribute to an understanding of economic, geographical, historical, and cultural factors in international relations or in areas that provide students with substantive skills related to a professional environment such as business and computer science. Recommended related courses in social science are ANTH 2010; ECON 2410, ECON 4440, ECON 4470; GEOG 3420, GEOG 3430, GEOG 4500; HIST 3150, HIST 4330, HIST 4340; SOC 4511, SOC 4520. Interdisciplinary minors with a cross-cultural or area studies emphasis are also recommended.

Political and Global Affairs

Robb McDaniel, program coordinator

pga@mtsu.edu

Students majoring in Political Science can choose a general focus or a concentration in either Public Policy and Management or Pre-law.

The Pre-law concentration is designed for the student who plans to attend law school. A combination of core political science courses and courses in related disciplines has been found to provide a sound background for law school. Some law schools will not accept any professional or technical courses as part of their minimum requirement. Angela Mertig, program coordinator

Angela.Mertig@mtsu.edu

Sociology is the study of social life, social change, and the social causes and consequences of human behavior. It is an expanding field that addresses challenging issues such as family dynamics, inequality, patterns of behavior, and forces for social change and resistance. Sociologists' research can be applied to virtually any aspect of social life, from crime to corporate downsizing.

Students must receive at least a C in each required course. Ideally students should take SOC 2980, SOC 3040, SOC 3050, and SOC 3060 early in the academic program, but no later than the junior year and prior to enrolling in SOC 4980 which should be completed during the senior year. In consultation with the student's advisor, the remaining 12 hours of electives may be organized into an emphasis. Possible emphases include, but are not limited to, social inequalities, deviance and social control, work and family, and health and aging.
